

LUXURY LIVING MAGAZINE'S Best Private Residence Clubs

Your Source for the Finest in Fractional Ownership across the globe.

Hello,

The staff and editors at Luxury Living International magazine would like to congratulate the Residences at The Little Nell on being selected among the Best Residence Clubs in the world. Luxury Living International (LLI) continues to be the premier online magazine and resource for information on second home and vacation real estate. This year LLI has expanded its Best of Paradise series by identifying the Best Residence Clubs, with honorees being selected by our editorial staff and various industry experts.

The editors at Luxury Living International recognize the growing popularity and trend among affluent second home buyers to look towards private residence clubs as a smarter way to own this form of real estate. Using criteria critical to making a Residence Club stand out as one of the best included qualities such as location, price points, hospitality services, desired amenities, quality construction and exchange programs. All are important aspects to our loyal readers as they learn which clubs are the very best in this growing segment of the luxury second home market.

In 2008, Luxury Living International introduced The Best of Paradise series, which includes such categories as world's best beaches to live on, the best places for sailors to live to the world's best beach bars and golf course communities in paradise. This continuing series, with its ever-expanding list of luxury aspects, helps our readers hone their decisions and ultimately select the list of places they'll choose from in finding their home away from home.

As a recipient of this distinction, your club will enjoy being featured on our website, www.bestresidenceclubs.com our Best of blog, www.luxurylivingint.com/blog/best-of-paradise/best-of-paradise and in press releases designed to promote both the Best of Paradise series and our new online portal www.BestResidenceClubs.com.
